97% of the Candidates surveyed are likely to recommend The Bandish Group

How likely are you to recommend The Bandish Group to a friend or colleague?

What our Candidates said about working with the Recruiters at The Bandish Group

Jackie was the recruiter I have worked with. I've worked closely with a couple over the years and usually have brief introductions to anyone who calls. My experience with Bandish group in general and Jackie in particular was AMAZING. Great help in preparation, great feedback along the way, totally responsive and accessible, and always kept me up to date as to where things were in the process and what were next steps. Jackie was professional and friendly and negotiated a package that was just excellent. Strong, strong work!!!

Janene Cleary was amazing as was Jackie although I mainly worked with Janene. The continued follow up, information provided, attention to detail, and professionalism throughout the interview process, after I was hired and even right before my start date was amazing. During this transition, I had worked with other recruiters and all of the detail that Janene and the Bandish group provided was missing. In all of my career, I had never worked with recruiters before this time. I really felt like Janene was a partner in the process and was as invested as I was in being hired. Janene sets the bar to a new level of excellence! Thank you for helping me get my dream job!

I have worked with Jackie historically and she had been very supportive on that previous opportunity. Very detailed in the description and a deep conversation about my background to ensure this was a good fit.

Janine gave me insight into the hiring manager and position and what the hiring manager was looking for in the person that was filling this position. It really helped me better prepare for the interviews. Thanks again for introducing me to an agency I had no idea existed, virtually in my backyard! Just completed my first week, and the staff are very engaging and supportive, and the work is challenging and exciting. Looking forward to a long tenure with them!

It was truly a pleasure working with Jackie; I had her continued support throughout the interview process.
